

Directives

Directives are tools that can be employed by the delegates, especially of a security committee, to influence the flow of the committee.

These are formal proposals or recommendations that you can send from an official under your command as the head of state to another official who is ALSO under your command. Ex. The President sends a directive to the Defense Ministry for securing the borders.

Use Case:

Directives are used to react to any event unfolding in the committee session, Issue formal statements and open diplomatic channels, Sanction countries, provide humanitarian aid, Mobilize troops, and even launch missiles or warheads!

Types of Directives

Based on Visibility

1. Open Directive: The directive will be public, and the contents will be read out to the entirety of the committee.
2. Closed Directive: The directive will remain hidden from the rest of the committee, and the actions taken (if ratified) will be noted privately by the dais panel.

Based on Action

3. Economic: Actions such as placing sanctions, trade tariffs, trade agreements, providing humanitarian aid and such.
4. Diplomatic: Actions such as a diplomat of one country visiting another for discussion, preparation of treaties, private discussions, etc.
5. Militaristic: Actions encompassing the use of military and movement of armed forces under your command, such as border patrol, attacking/military operations, espionage.
6. Joint: A directive made by two or more countries involved, collectively making a certain action together.
7. Committee: This is a special type of directive made in collaboration with the entire committee in response to resolving the challenge posed by a single or multiple crises.

Directive Sample

CLOSED DIRECTIVE 2.2

Date: September 12th 2024

From: Whitehouse, USA

To: Defense Ministry of USA

Subject: Response to the threats of Russia

Due to the announcement of Russia to back the Houthis with naval presence, we have decided to recall our commitment to the United Nations Convention on the Law of Sea (UNCLOS) and the principle of Freedom of Navigation. For this, we shall announce a military exercise in the Indian Ocean with small navy vessels.

We call upon the US Navy along with the Airforce to send:

- 1) One aircraft carrier- USS Ronald Reagan,
 - 2) Escorted by Four cruisers: USS Gettysburg, USS Chosin, USS Shiloh and USS Normandy,
 - 3) Followed by Two Destroyers and One Ballistic Missile submarines,
- To the Indian Ocean about 400km from the land of Somalia.

These ships shall go to the Indian Ocean and cruise in the region not exceeding to the Arabian Sea by 0230 (UTC-5). They shall stay on alert and keep watch of any hostile activities. Through the destroyers, we shall impose a naval blockade to unfriendly foreign vessels with support of cruisers.

If any threat is posed to the defense of these ships, they shall abide by the Rules of Engagement and act accordingly.

Signed,

Joe Biden

President of USA

JOINT DIRECTIVE SAMPLE

JOINT DIRECTIVE 1.0

Date: 11th November, 2024

Issued By: The Federal Democratic Republic of Nepal and The United Kingdom of Great Britain and Northern Ireland

Subject: Regarding Recent Cyberattacks on Government Infrastructure

Recognizing the growing threat posed by cyberattacks targeting critical infrastructure, Nepal and the United Kingdom hereby issue this joint directive to strengthen collective cybersecurity defenses and promote global stability in cyberspace. Establish a bilateral task force for real-time information sharing on cyber threats and vulnerabilities, ensuring a rapid and coordinated response to incidents.

1. Launch joint training programs to enhance the capabilities of cybersecurity professionals and promote knowledge exchange between our nations.
2. Commit to developing and deploying advanced technologies for critical infrastructure protection, with a focus on energy grids, financial systems, and healthcare networks.
3. Advocate for international norms to deter malicious cyber activities and hold accountable those who violate them.
4. Extend technical and advisory support to allied nations to fortify global cybersecurity resilience.
5. This directive reinforces the shared commitment of Nepal and the United Kingdom to safeguard the digital domain and protect the security and prosperity of our citizens.

Signed.
